

Triangular Menu

This extension implements an animated triangular shaped menu which can be displayed in the corner (top-left, top-right, bottom-left or bottom-right) of a web page. This menu uses CSS only (no JavaScript).

The menu has support icon libraries, like Font Awesome, Material Icons, IonIcons etc. <https://wysiwygwebbuilder.com/iconfonts.html>
Icons can also be published as embedded SVG to keep the page weight low.

Online demo

Position

Specifies the (fixed) position of the menu: top-left, top-right, bottom-left or bottom-right.

Width basis

Specifies the width basis (scale factor) of the menu. This is used to calculate different sizes of the menu items. This is a floating-point value (for example: 4.8).

z-index

Specifies the z-index. This makes sure the menu is on top of all other elements on the page.

Background color

Specifies the background color of the open/close button.
Note that each menu item has its own background color property.

Text color

Specifies the text color of the menu items.

Animation Duration

Sets the length of the expand/collapse animation.

Hover duration

Specifies the duration of the hover transition of menu items.

How to install this extension so it is available in WYSIWYG Web Builder?

You can use the Extension Manager (Menu->Tools->Extension Manager) to install this extension.

Alternatively, you can manually copy all files from the zip file to the Web Builder extensions folder. Usually this folder is in this location:

My Documents\WYSIWYG Web Builder\system\extensions\

Requirements

WYSIWYG Web Builder 12.2 or higher to support responsive font-size.

WYSIWYG Web Builder 16.1 or higher to support icon libraries.
