

Block Tower Menu

The Block Tower Menu implements an animated “block tower” menu. Each menu item can have a different background color.

The menu has support icon libraries (WWB16.1+), like Font Awesome, Material Icons, Open Iconic, IonIcons etc. <https://wysiwygwebbuilder.com/iconfonts.html> Icons can also be published as embedded SVG to keep the page weight low.

Block Height

Specifies the height of each block.

Perspective

The perspective property defines how far the menu is away from the user. So, a lower value will result in a more intensive 3D effect than a higher value.

Icon Offset

Specifies the spacing between the text and the icon.

Angle Increment

Specifies the how much each item is rotated relative to the previous item.
